研究題目 Research Topic	Hip-Hop Historiography	
研究成果の 概要  Academic Achievement	<p>This project was part of a larger project that sought to historicize existing scholarship concerned with Hip-Hop in the liberal arts and social sciences. Hip-Hop historiography was the first comprehensive examination of Hip-Hop scholarship to date. Through a close reading of the existing literature I constructed a narrative that accounted for the various phases that have pervaded Hip-Hop scholarship over the last 30 years. I have written the project up and expect to publish in a peer-reviewed journal in the coming months.</p> <p>In addition, I also documented various Hip-Hop performances through still photography and video. I will be exhibiting this work along with an accompanying essay in Kyoto in July 2011.</p>
