別記

I attended several workshops in topics of “Hard and Soft Power in Japan’s International Relations” at the London School of Economics and Political Science (LSE), and the University of Oslo Department of Culture Studies and Oriental Languages in Oslo, Norway. At LSE, I also took part in a weekly workshop on International Relations Theory (IR-502) and offered some classroom guest lectures. In addition to publications listed above, I have unpublished manuscripts still in preparation for publication. I was interviewed by Timothy Conley for the magazine of *Financial Times* regarding Trump and Abe, and my quotation appears in, “Trump stays on Script during Visit by Japan’s Abe,” *FDI Intelligence* [magazine of *Financial Times*], March 30, 2017. I worked as peer reviewer for the QS World Education Rankings for 2017. I gave advice to student members of the “zemi” (Senior Seminar) of Professor Bettina Gildenhard at Doshisha University (Global Communications), and I carefully edited each of their graduation theses.
