

# Getting Published Webinars from the Nature Research Academies

オンラインのライブ形式で実施される論文執筆ワークショップを実施いたします。今回の研修では、アクティビティに参加したり、講師に質問することができます。日頃論文を執筆する中で、こんな時どうしたらいいのか、研究成果を魅力あるものとして提示するための方法を自身の研究テーマに沿って、実際に考える機会にさせていただきたいと思います。

- 日程：1月25日(火) 13:00～15:00、16:00～18:00  
1月28日(金) 10:00～12:00
- 形式：オンライン
- 使用言語：英語（全て英語で実施します）
- 講師：Jeffrey Robens 氏

ジェフリー・ローベンス博士は、多彩な経歴を持つ生命科学分野の研究者であり、経験豊富な著者・査読者でもあります。米国のペンシルベニア大学を卒業後、理化学研究所や京都大学を含む様々な研究機関に勤務。現在はネイチャー・リサーチの編集開発マネージャーとして、研究・出版における経歴を生かし世界中でワークショップを開催しています。特に英語を母国語としない研究者を対象として、論文発表に至るまでのノウハウを提供、論文の品質向上に努めています。

Jeffrey Robens 氏

## ● プログラム概要

### Webinar 1: Effective academic writing 1月25日(火) 13:00～15:00

#### Section 1: Importance of clear communication (10 min)

This short introductory section discusses the challenges that readers have when reading complex scientific ideas, and emphasizes the importance of keeping the reader in mind.

#### Section 2: Logical flow and structure (35 min)

This section reviews strategies to keep writing concise and improve the flow of ideas in academic papers to ensure that people can read these articles quickly and easily.

#### Break and Q&A (15 min)

#### Section 3: Improving readability (30 min)

This section guides attendees on how to improve clarity and readability when communicating complex scientific ideas to their readers to avoid confusion and misinterpretation.

#### Section 4: Writing strategies (15 min)

This final section discusses strategies that attendees can use to make the writing process more efficient and easier for all co-authors.

#### Final Q&A (15 min)

# Getting Published Webinars from the Nature Research Academies

## Webinar 2: Publication ethics 1月25日(火) 16:00~18:00

### Section 1: Authorship (20 min)

This section discusses what a researcher needs to do to qualify as an author on a paper. We also review authorship contributions as well as authorship order for the article.

### Section 2: Data manipulation (20 min)

This section reviews how to properly handle and present your data in your figures to improve trust and reproducibility.

### Section 3: Conflicts of interest (10 min)

This section reviews important conflicts of interest authors may have, such as personal or financial, that could lead to biases and misinterpretations of the findings.

### Break and Q&A (15 min)

### Section 4: Transparent reporting (25 min)

This section discusses the importance of being transparent in reporting the study in the paper, as well as strategies to avoid selective reporting and publication biases.

### Section 5: Plagiarism (15 min)

This last section first reviews how journal editors assess plagiarism in submitted manuscripts, and then highlighting strategies authors can use avoid plagiarism in their manuscripts.

### Final Q&A (15 min)

## Webinar 3: Maximizing Discoverability 1月28日(金) 10:00~12:00

### Section 1: Importance of being discoverable (15 min)

This introductory section discusses why it is important for authors to be discoverable after publishing their paper to maximize their impact.

### Section 2: Impactful titles (25 min)

This section discusses how to write a title that get the reader's attention in online databases and increase the chances that they will click on it and read the abstract of the paper.

### Break and Q&A (15 min)

### Section 3: Effective keywords (20 min)

This section guides attendees on to choose the best keywords to that will increase the chance of discoverability online.

### Section 4: Abstracts (30 min)

This section reviews the importance that abstracts will have for editors, reviewers, and peers in the field. We will review both structured and narrative abstracts and discuss strategies to ensure that it is the best first impression of the paper for the reader.

### Final Q&A (15 min)
